TEDC's goal, through this mentorship, is to connect mentor economic developers with new or young economic developers around the state. During this process, the mentee will have an opportunity to walk through any issues that he or she is dealing with at the moment. These situations could range anywhere from issues dealing with their board, to developing new prospects; from negotiation incentives, to land development, and more.

Mentorship Program

TEDC
TEXAS ECONOMIC DEVELOPMENT COUNCIL

www.texasedc.org

Mentees
Economic development professionals that are new to the profession, either because they are a young professional or they have come to economic development from a different profession or career. These professionals would also be evaluated by the Mentor Program Sub-Committee for consideration. In order to participate in this program, potential mentees must be Active TEDC members or must join TEDC as an Active member if they are not already a member. This program is not eligible to Volunteer Members of the TEDC.

Mentors
Hand picked, long time TEDC members that have served in leadership roles and have a positive reputation and outlook in Texas and the economic development industry. Members that are at that point in their career that they are ready to sincerely "give back" to the profession and mentor other economic developers in Texas, without, necessarily, looking for a return on their investment or an advantage against their fellow economic developers.

Please submit to Florence Maillot at 1601 Rio Grande Ste 455, Austin, TX 78701 or at florence@texasedc.org.

Would you benefit from participating as a mentee?
