

TEDC's Future Leaders Training Seminar

October 23rd, 2024, 8:15-10:15 AM

Marriott Quorum Hotel
Dallas/Addison

Human Leadership

A fully experiential workshop exploring the demand for human centred leadership in organizations now and into the future.

We will explore the core aspects of Human Leadership in a peer learning approach reflecting on our own experience and expertise. Through active discussion we debate and challenge ourselves and others to consider how we can stretch our development further.

The group will create commitments and actions together that advance the application of Human Leadership into their role, team and organization.

The seminar qualifies toward the TEDC's Future Leaders Training Program requirements and is for participants in the TEDC's Future Leaders Training Program only.
